### **SUMMARY**

- 3+ years experienced and 2x AWS Certified Cloud Architect of client-facing experience with a prolific track record in Solutions Design for Cloud technologies to formulate and execute highgrowth strategies across a wide spectrum of domains.
- Cognitive about designing, deploying and operating highly available, scalable and fault tolerant systems on cloud.

## **EXPERIENCE**

#### **Cloud Architect @ Accenture**

October 2017 - Present | Mumbai, IN

#### **Cloud Architect in Insurance Industry**

April 2020 - Present | Global Insurance Analytics | Connecticut, USA

- Architected and embedded visualization dashboard of claims, policy data in an Angular application by utilizing QuickSight's serverless architecture to easily scale out the insights with the growing user base
- ▶ Create CloudFormation template to facilitate automated deployment of the resources
- Used IAM for creating roles, users, groups and attached policies to provide minimum access to the resources
- Environment: AWS Cloud, Technology: IAM, QuickSight, Glue, Cognito, STS, CloudFormation, ELB, Security Groups, CloudFront, STS, S3, Lambda, API Gateway, VPC, EC2

## **Cloud Solutions Architect in Food Service Industry**

Feb 2019 - March 2020 | Data Governance Team | Chicago, USA

- Successfully ported a legacy, on-premises application to AWS and achieved significant increase in availability
- Select, provision and monitor appropriate AWS service based on data, compute, database and security requirements
- ▶ Analyzed client requirements and determined system architecture to achieve business goals
- ▶ Experienced interactions with senior management executives and across functional areas
- Environment: AWS Cloud Technology: IAM, VPC, EC2, SES, SNS, CloudFront, S3, ELB, Lambda, API Gateway, EMR, CloudWatch

## **AWS IOT Architect in Oil and Gas Industry**

May 2018 - Jan 2019 | Global Oil Enterprise | Singapore

- ▶ Manage large volume of sensor data and combine with right decision logic to trigger actions
- ▶ Collect and store streaming data at any scale and at low cost
- ▶ Analyze streaming data running on the edge to identify behavior patterns and event detection
- ▶ Visualize live and historical equipment data using QuickSight
- Environment: AWS Cloud Technology: IOT SiteWise, IoT Greengrass, IoT Core, IOT Analytics, IOT Events, IAM, SNS, SES, Lambda, S3, Kinesis, QuickSight

## **Data Analytics for Wine and Spirits Distributor**

Oct 2017 - May 2018 | Data Analytics Team| Florida, USA

- Perform predictive analytics on customers legacy data to predict key performance metrics using time series modeling
- Connect legacy data stored in S3 to notebook instances and transform data to gather meaningful insights by utilizing NumPy and Pandas library in PySpark
- ▶ Learning new tools and skillsets as needs arise.
- ▶ Environment: AWS Cloud Technology: PySpark, SageMaker, S3, IAM, NumPy, Pandas

#### **SKILLS**

#### AWS Cloud 🗅

- ▶ Computing Services
- ▶ Storage Services
- ▶ Networking & Content Delivery
- ▶ DevOps
- ▶ Containers
- ▶ Machine Learning
- ▶ Database Services
- ▶ Security and Identity Services

#### Machine Learning Algorithms

- ▶ XGBoost
- ▶ Reinforcement Learning
- ▶ Forecasting
- ▶ Text Analysis
- ▶ Ensemble Learning

#### Languages

Python, SQL, HTML, CSS

#### **CERTIFICATIONS**

## AWS Certified Solutions Architect Associate

June 2020 | Amazon Web Services

### **AWS Certified Developer Associate**

Sep 2020 | Amazon Web Services

#### **Python Data Structures**

Oct 2020 | University of Michigan - Coursera

#### **EDUCATION**

#### **University of Pune**

2013 - 2017 | Pune

- ▶ Bachelor of Electronics and Telecommunications
- ▶ IEEE Student Branch Chairman

## **AWARDS**

## Accenture Celebrates Excellence (ACE) Award - FY20 Q2

May 2020 | Accenture

## **INTERESTS**

⅔ Golf, Travel, Music and Life

## **LEADERSHIP**

## Nonprofit Cloud Application Architect

2019 – 2020 | Mumbai

Spearheaded a team of 3 developers, content creators and a legal advisor to assess 15+ proposals and to initiate application deployment on cloud
